Component 2:Capacity building in Drug Demand Reduction (DDR)

The operational objectives of the component 2

Component 2: Capacity building in Drug Demand Reduction (DDR)

- **2.1.** Assess existing needs in DDR, to define specific final contents of foreseen activities under Component 2, adjusting them according to different groups of countries.
- **2.2.** Facilitate the validation and endorsement of quality criteria agreed during C1, for programmes implemented in: prevention; treatment, harm reduction; and social (re)integration/rehabilitation.
- 2.3. Validate innovative programmes for populations at risk, paying special attention to women at
- 2.4. Promote exclusion
- **2.5** Expand the sustainable capacity building approach initiated in COPOLAD I, by enlarging its coverage, as well as the number of themes addressed.
- 2.5. Expand the sustainable capacity building approach initiated in C1, by enlarging it well as the number of themes addressed.

 On-line training courses in a project-supported initiative, which ensures the project project areas.
- 2.6. Maintain a project-supported initiative, which ensures the major priority areas tools, in a way that becomes self-sustaining beyond the duration or the major priority areas

Summary of the progress of the component 2

First period 2017 (January-February)

- 1. Revision/updating the on-line courses 1 & 2 developed in and Virtual Classroom.
